Mr. K. R. Viswambharan *(Ezhuvas-Talappalli):* When making the initial appointments of persons of the same qualifications,

LIBRARY ARCHIVES Kerala Legislative Assembly

what is the principle applied in appointing a certain class in a higher grade of pay and others in a lower grade?

Rao Sahib I. N. Menon *(Director of Public Instruction):* I don't claim I have understood the question very clearly. I shall however try to answer. Most of the appointments under Schedule B were made years ago when qualified men were not available. Take, for instance, item No. 1. She is Form III trained. She has put in 34 years of service, and it is doubtful whether qualified persons were available for appointment at that time. The only cases to which the hon'ble member's question can apply probably will be items 13 to 28, people with about 10 years or under of service. Some of them, I have to speak from memory, were appointed for some special reason or other. Some I know were taken over from private service when schools came to be taken over by the Government. So we did not at that time reduce their pay beyond a certain limit. Some were appointed because they had some special qualifications which were required. For instance, trained and specially trained in co-operation. The appointment was made in the Training School for which such qualified persons were requisitioned. And there is the case of one P. M. Varkey, School Final and Sericulture trained. He was sent up for special training by this Government to Mysore on the distinct understanding that he will be given a grade higher than the usual Malayalam P-3 on his return. This is the only information which I have with regard to some of these specific appointments. They were made years ago, and I can find no special records relating to their appointments except their service orders. I can, however, give the hon'ble member a distinct assurance that we will see that with an exception of a handful of persons every other person has obvious justification for being appointed to that grade.
